

Benefits of Outsourcing

Outsourcing student transportation offers schools boards the opportunity to defer decisions related to new bus capital, bus routing issues, vehicle maintenance and recruitment of drivers to an experienced transportation provider, and redirect energies and resources back to their core purpose – education. Additionally, outsourcing provides school boards with optimal cost savings anywhere from 10 to 30 percent.

Why Stock Transportation?

We are dedicated to providing not only the safest and highest-quality transportation for our students, but also building and maintaining a strong partnership with each school board and their community.

At Stock Transportation, we live by five core values – Safety, People, Customer, Community and Excellence. These values are embedded in everything we do and set us apart from other providers. They are integrated into our:

- Unmatched safety programs
- Industry-leading technology
- Optimal cost savings
- Superior preventive maintenance
- Proven operational practices
- Reliable customer service
- Extensive driver training

Partner With An Industry Leader in Student Transportation

Getting students to school safely, on time and ready to learn.®

stocktransportation.com

Who We Are

For 60 years, Stock has safely transported students across Ontario, Nova Scotia and Alberta. Rooted in these communities where we live and work, Stock takes pride in putting the safety of our students above all else with the mission of getting them to school safely, on time and ready to learn.

At Stock, we take pride in putting the safest drivers behind the wheel of our busses. Stock employs more than 3,500 outstanding individuals. Each driver undergoes more than 60 hours of training in the classroom and behind the wheel before they are assigned a route. Additionally, monthly safety meetings are held and refresher training is provided throughout the year to ensure our drivers are consistently delivering the safest and highest quality service to our students and partners.

Industry-Leading Technology

With new technology evolving every day, Stock understands the importance of taking advantage of cost and time saving resources to ensure the safest, quality service each student deserves. Along with rigorous driver training, Stock Transportation uses industry-leading technology to complement its suite of safety tools.

Stock uses innovative resources to provide peace of mind for parents and guardians. The Stock Bus Tracker App allows them to follow their student's route. BusReport is a cloud-based system that allows users to log all complaints, concerns and questions in a centralized database. Anyone can make a report online or via phone, and it is reviewed within 24 hours.

School buses are equipped with Zonar® – a set of checkpoints located throughout the bus to reinforce proper pre- and post-trip inspections, as well as our required child check procedure to ensure every child has safely exited the bus prior to the completion of each route.

Benefits of Outsourcing

Outsourcing student transportation offers schools boards the opportunity to defer decisions related to new bus capital, bus routing issues, vehicle maintenance and recruitment of drivers to an experienced transportation provider, and redirect energies and resources back to their core purpose – education. Additionally, outsourcing provides school boards with optimal cost savings anywhere from 10 to 30 percent.

Special Needs Transportation

As a leader in student transportation, Stock understands the importance of meeting the individual requirements of students with special needs to help ensure they have a safe and reliable means of transportation. In addition to optimized routes for travel and specially equipped buses, Stock provides additional training to each special education driver and monitor to properly service and tend to their student's needs.
